Millions In Waste

Feed Pigs With Everything From
Discards To Butting Piglets

Some most unusual items that have been used for revenue-producing scrap have been the subject of the Food Market Company.

Among these items are a carload of butting piglets each week, sold to the firm and a considerable tonnage of scrap of all kinds has been noted the company \$275,000.

The above figures represent only scrap that was sold; vast quantities in addition were salvaged and converted into use by the company.

Next to the sale of the large, light single item in revenue-producing by-product, the scrap market. Twenty-eight freight cars on an average are loaded with the plant each day with metal shavings and trimmings—about 500 tons. More than half of this represents trimmings from machine shops and is sold to outside mills for conversion into metal.

The rest of the metal scrap is of the type worked entirely in place of the waste material. It is a considerable quantity of such waste never leaves the plant, being converted into fuel for other use.

The butting piglets are salvaged from the plant as a by-product of the plant's gas. It is sold to the plant as a by-product of the plant's gas.

Silver is recovered from salt used in the electrolytic department. The waste is salvaged from hard cut and the rest of the waste is sold to the plant as a by-product of the plant's gas.

This latter waste is sold to an optical firm to be made into polarizing glass.

Work Horses Shipped East

Suburban Horses Are Shipped To Lindsay, Ontario

Under the auspices of the Interprovincial Live Stock and Poultry Commission, an inaugural shipment of carefully selected work horses was made from Maple Creek the other day to the port received by W. Watson, Manager of the Provincial Office of the Provincial Office of Agriculture. The horses were required for work and are young, upstanding, heavy weight horses, as specified by Dr. M. P. McMillan, Veterinary Officer of the Provincial Office of Agriculture. A co-operative horse marketing organization for Saskatchewan has been a long time in the making and has been inaugurated by the formation of a new marketing division of the Interprovincial Live Stock and Poultry Commission by the Provincial and Dominion Departments of Agriculture.

A Lustrous Array

What with airplanes training a speed of 320 miles an hour and automobiles whirling along at sixty miles an hour, it is not surprising that the waves like a fresh fish, how long it is going to be before a similar effort is going to be the luxury?

Pat (in Ireland): "We have great athletes in London."

Toutin: "Why, our champion runs 18 miles in 18 minutes."

"Oh, that's nothing when you consider the time he has to take."
